Specification

- Steel, 1.7225 (42 CrMo 4 V) zinc plated, blue passivated **ST**
- Stainless Steel AISI 303 (X 10 CrNiS 18-9) **NI**
- F₁: max. total load
- F₂: max. load after deduction of the max. preload
 - for screws 8.8, $\mu = 0,125$ (Steel)
 - for screws 6.8, $\mu = 0,14$ (Stainless Steel)
- Stainless Steel characteristics → Page 1489
- RoHS compliant

Accessory

- C-Spanner DIN 1810 (code no. see table)

Information

Levelling sets GN 350 are used for levelling and linking operations. They comprise a threaded upper sleeve and a female threaded lower sleeve. The fine thread allows a stepless and precise setting and locking using the C-Spanner DIN 1810. A locking ring serves also as a height limiter for the max. height.

Normally this screw is permanently and securely locked by the static load created when the mounting screw is tightened.

Should this not be sufficient, the use of a locknut (Type AK) is recommended.
