

## Cam-action indexing plungers

### Item description/product images

---

### Description

**Material:**

Handle 1.0503.

Pin steel grade 5.8.

Sleeve 1.0403.

**Version:**

Black oxidised.

Pin hardened and ground.

**Note:**

Cam-action indexing plungers are used when the indexing pin should not project all the time. Turning the handle through 180° retracts the pin.

A notch ensures that the handle remains in this position.

**Drawing reference:**

Form E: grip uncoated, smooth sleeve

Form F: grip powder-coated, smooth sleeve
