CENTIPEDE GROMMET GK

SUS

- Easy to install in a short time without using glue. Sorting and disposal is also easy.
- Made of all stainless steel with conductivity and excellent thermal durability.
- Can be post-installed or on-site handled for edge processing of finished equipment.
- Inward or outward bending available with bending radius more than 10mm.
- Can be easily cut with pliers.

[Remarks]

- Please cut at the edge of foot and do not leave the dorsal part. (Refer to the following figure: How to cut the grommet).
- Please do not reuse. Otherwise, the catch force of the grommet weakens and may not be fixed securely.
- Please use a grommet suitable for board thickness. Do not use for applications other than adaptable board thickness, as it may not be securely fixed.

[Installation]

[How to Install]

[How to Cut the Grommet]

Can be easily cut with pliers.
